

FROME THIRD AGE

We meet on the second Friday of every month (except August) in the Assembly Rooms, behind the Memorial Theatre in Christchurch Street West - 2.00pm. We have a speaker, notices concerning our activities and refreshments - tea/coffee/biscuits. We usually finish about 4.00pm. We publish a Newsletter twice a year.

As you might expect, there is a membership fee, currently £15 annually, payable in January. However, if you are new in Frome, or have recently discovered us and would like to join at some other time of the year, you will be most welcome. We offer a 'taster' meeting, so that you can find out what we are all about before committing yourself, so your first encounter with us will be free.

In between the monthly meetings we have a variety of activities which take place either in members' houses or at a small local venue, such as a church hall. These activities are run by members who are happy to offer their talents and interests to other members and usually take place on a monthly basis. There may be a small fee payable, particularly if a local venue is involved. Numbers in these groups are determined by the size of someone's sitting room, or the particular venue. Currently we have twenty groups comprising two art groups - Art Appreciation and Discovering Art, Scrabble, three book groups - A Good Read, Book Worms and Latecomers Book Group, Poetry, Indoor Games, Music Appreciation, Science & Technology, Digital Photography, Theatre Visits, Craft, Creative Writing, Bird Watching & Natural History, Pub Lunches, General and Local Interest, Play Reading, Current Affairs and Walking.

We also have a website - www.fromethirdage.org.uk - which may enlighten you further.

So, if you feel you would like to make new friends and enjoy regular meetings on a very informal basis, Frome Third Age might be just the thing for you.

GENERAL DATA PROTECTION REGULATION

These regulations govern the way in which all organisations must protect and process data. It places a range of new obligations on organisations to be more accountable for data protection
